

Friday 11th October 2024

This week is World Space Week, a week-long celebration of space, science and technology. It's been a great way for us to engage in lots of fun space themed activities, play and learning.

The children have used a variety of construction resources to build rockets and spaceships which has encouraged them to use problem solving skills and social skills as they worked with their peers.

All around the nursery we have heard children counting down as they prepare to blast off...a fun way to get counting practise in.

On Wednesday the children made their own salt dough and then created moon rocks and stars. Once these have dried, we can begin the job of decorating them.

Little All Sports. Wednesday.

This week the children worked on balance, coordination and spatial awareness through a gymnastics-based circuit.

The session ended with each child having the opportunity to come up and do a forward roll with Lisa and then enjoy a cheer from their friends as they pressed the 'I did it' bell!

Thank you so much for the generous donations to our Harvest collection for East Elmbridge foodbank. We will be delivering the items to our local drop off point next week. We will be accepting donations until Tuesday.

Thank you for helping us to support our local community.
